**Arjun Patel**
Senior Python Machine Learning Engineer

**Professional Summary**
Highly experienced Python Machine Learning Engineer specializing in NLP-based systems, resume screening, and intelligent recruitment platforms. Strong background in backend development and data-driven decision systems.

**Core Skills**
Python, Machine Learning, Natural Language Processing, NLP, SQL, Flask, Django, Data Science, Git, Docker, AWS, Deep Learning

**Experience**
4+ years of experience as a Machine Learning Engineer.
Designed and deployed NLP-based resume shortlisting systems using Python and Flask.
Built REST APIs and ML pipelines for real-world recruitment applications.
Worked extensively with SQL databases and cloud deployment on AWS.

**Projects**
AI Resume Shortlisting System using NLP and Machine Learning
Job Matching Engine using TF-IDF and Cosine Similarity
NLP-powered Applicant Tracking System (ATS)

**Tools & Technologies**
Python, Flask, SQL, Git, Docker, AWS, Scikit-learn, NLP Libraries
